

St. Clair County Community Mental Health  
Agency Directive re: Daily COVID-19 Screening

5/29/2020

---

- Until further notice, the Agency is instituting daily COVID-19 screening at all CMH building sites as a measure to preserve the health and safety of both employees and visitors.
- All employees and visitors (there are no exceptions) are required to have their temperature taken and will be asked COVID-19 symptom and exposure questions prior to entry to the building each day. Any temperature 100.4° or higher or those with symptoms or exposure will be asked to return home and follow up with their health care provider.
- At Electric Avenue screening is currently only available at the Electric Avenue entrance. All employees and visitors **MUST** use that entrance to be screened at their first arrival that day. After your first entrance of the day you are welcome to come and go from any door of your choosing.
- Please have your mask properly secured over your mouth and nose before entering the front doors.
- Employees please do not use your ID badge to enter the CMH building on your own. Please remain outside until the screener has finished with the person in front of you. There will be a limit of one person (per screener) at a time. The screener will let you in when ready.
- Thank you for protecting the health and safety of your colleagues as well as visitors by adhering to this procedure.
